To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Administrator doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Administrator was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of The Legislative Assembly of Ontario:

The Second Session of the Twenty-sixth Parliament of Ontario which is now being brought to a close has carved out new paths in the history of our Province. The Session commenced last November 22nd and, except for the Christmas recess, has met regularly over a period of 18 weeks. This is the longest Session that has been held by the Legislature of Ontario. Honourable Members will agree that the addition of the autumn sitting has made it possible to provide a more orderly arrangement of the business of the House and to allow more detailed study of the increasingly complex matters with which the Provincial Legislature is now concerned.

During the course of the Session you have been called upon to examine into and consider an exceedingly wide range of matters of vital importance to our people. You have approved new measures to strengthen the Province's financial position and to promote industrial expansion, natural resource development and employment. You have authorized enactments to improve our system of education and health services and to reinforce human rights and individual and family security. You have endorsed an unprecedented program of assistance for our municipalities and school boards.

The members of this House have shown a strong sense of social responsibility and have worked faithfully on behalf of the future advancement of our Province. At this Session, because of the autumn sitting, you were asked to consider and assess the Estimates of most of the Departments before the Budget was brought down. I wish to congratulate the Honourable Members for the manner in which they adjusted themselves to this innovation and have co-operated in facilitating the heavy schedule of business completed at this Session.

As a result mainly of three factors—first, the expanded capital projects and repairs program; second, the enlarged assistance for education; and, third, the increased appropriation from general revenues for hospital insurance—a Provincial Budget providing for an expenditure of more than \$1 billion in the coming fiscal year has been approved.

You have kept squarely before you the need for measures to promote sound growth in the long run as well as to bolster employment in the short run. The unprecedented Budget which has been authorized reflects my Government's earnest efforts to create a resurgence of economic activity resulting in more work, more jobs and higher incomes for our people. You have endorsed the largest highway and road construction program in Ontario's history. A record-breaking volume of construction of hospitals, schools, university facilities, and water, sewage and conservation works, carried out across the length and breadth of this Province, has been approved. While such a large volume of essential capital works strengthens Ontario's economic foundations and fosters industrial expansion and community growth, it also stimulates on-site and off-site employment at a time when it is needed.

The members of this Legislature have been mindful of the need for job-creating winter works to counteract the seasonal upswing in unemployment. The commencement date of these arrangements—involving the three levels of government—was advanced six weeks from December 1st to October 15th, while the termination date was also extended an additional month, until May 31st. By lengthening the period during which projects may qualify, the municipalities have been able not only to plan projects well in advance but to multiply the number towards which the Federal and Provincial governments contribute 75 per cent of the labour cost. The program was also made more comprehensive by including major construction work on municipal buildings, thereby increasing the volume of work that could be carried on by tradesmen and other workers engaged in the production and handling of supplies.

In your deliberations, you have given careful attention to measures to promote the development of the northern parts of the Province. A multitude of new projects including new highways and bridges, as well as arrangements such as advertising and grants to assist the tourist industry, have been approved. All of these are designed to increase purchasing power and stimulate settlement and economic growth in Northern Ontario.

New legislation has been approved reconstituting the former Department of Planning and Development and the Department of Economics. These Departments, which have been given additional functions, are now renamed the Department of Commerce and Development and the Department of Economics and Federal and Provincial Relations. In approving these measures you have demonstrated your recognition of the need for an extension of the services which these two Departments provide for both industry and Government.

Legislation has been enacted to provide for the acquisition and conversion of existing housing accommodation for public housing purposes. The Conservation Authorities Act has been amended to give the local conservation authorities more power to make regulations applicable to land owned by them.

In your deliberations, you have quite properly devoted a great deal of time to the problems associated with education, health and human betterment. By your approval of a broad program encompassing Departmental expenditures, grants and legislation, you have extended the frontiers of educational opportunity and social security.

The mounting pressures of our growing school population have been reflected by the huge increases in the expenditures for education. For the fiscal year 1961-62 total expenditures of the Department of Education are expected to exceed \$268 million, almost \$42 million more than in the current fiscal year. In giving approval to the Estimates for education, you have authorized an expanded program of teachers' colleges and much greater assistance to universities for both operating and capital purposes. Legislation has been enacted confirming the agreement between the Massey Foundation and the Governors of the University of Toronto to establish facilities for graduate students, to be known as Massey College. You have approved Acts incorporating Thorneoloe University and St. George's College. Payments have been increased for student aid in the form of scholarships, bursaries and loans so that an estimated 7,000 university students will receive direct Provincial assistance next year. Increased technical training, job retraining for unemployed persons and language and citizenship classes for immigrants are also to be provided.

By passing the Residential and Farm School Tax Assistance Grants Act, 1960-61, you have pioneered a new system of grants to elementary and secondary schools designed to afford tax relief on residential and farm properties. For the fiscal year 1961-62, a grant of \$5 will be paid to school boards for every pupil in elementary and secondary schools. In 1962-63 this grant will become \$12 per pupil and in 1963-64, \$20 to

\$40 per pupil. The cost to the Province of this special grant over the three years will be \$54 million in addition to the payments made under the general grants formula. By 1963-64, Provincial aid to school boards will have reached a total of at least \$265 million, as against \$161 million in 1960-61. This new grant scheme will greatly aid residential and farm ratepayers who, in the main, are unable to charge these taxes to the cost of production and thus treat them as a deduction from income for income tax purposes.

Amendments have been passed to several Acts in the field of education, including The Teachers' Superannuation Act, The Schools Administration Act, The Public Schools Act, The Secondary Schools Act and The Separate Schools Act.

As a result of the reports on hospital insurance to the Legislative Committee on Health, the Honourable Members were made cognizant of the rising costs of hospital insurance operations in Ontario and in other jurisdictions. In order to stabilize hospital premium rates over the next three years at their present levels the Government is required to appropriate increased amounts from the Consolidated Revenue Fund. In the coming fiscal year this payment from general revenue will total \$50 million, an increase of \$32 million over the current fiscal year. Increased outlays will also be required for other health services involving an overall increase of \$40.3 million for all purposes. Among the many items authorized is a special grant of \$75 per bed to be paid to all qualified public hospitals in Ontario.

Recognizing the need for more research into mental illness, you have established the Ontario Mental Health Foundation along lines similar to the Ontario Cancer Treatment and Research Foundation. To prevent overcrowding in Ontario mental hospitals and to provide more adequate treatment of some forms of mental illness, legislation has been enacted providing for the establishment of community hospitals for the short term treatment of mild mental disorders. Such community hospitals will further extend the program of treatment of the mentally ill.

The scope of the Alcoholism Research Foundation has been enlarged to permit studies to be carried out on another social problem—drug addiction. You have approved an amendment to The Liquor Control Act to allow for the detention of alcoholics, by order or voluntarily, in institutions established for the reclamation of alcoholics. The Hypnosis Act which restricts the use of hypnosis to professionally qualified persons has been passed. You have taken steps to implement the recommendations of the Committee appointed to inquire into and report upon the fluoridation of water supplies.

This House has made generous provision for the relief of those Ontario residents who find themselves in unfortunate circumstances. The Estimates for the Department of Public Welfare amply demonstrate the scale of the Province's assistance in this field. In line with the progressive nature of past welfare legislation, several amendments to The Homes for the Aged Act have been adopted.

In response to the impact of large scale immigration on Ontario's social structure, you have created a new department of Government known as the Department of the Provincial Secretary and Citizenship. In addition to those functions and duties that were carried out by the Provincial Secretary, the Department will by itself, or in co-operation with other departments, advance and encourage the concept and ideal of full and equal citizenship among the residents of Ontario in order that all may exercise effectively their rights, powers and privileges, and fulfil their obligations as Canadian citizens.

The technical committee on portable pensions presented its summary report to a Committee of the House in February. It has been asked to continue its work and draft, in co-operation with legal counsel, legislation which will embody its recommendations. My Government will discuss this draft legislation with the other

provinces and the Federal Government with a view to obtaining their co-operation in instituting major improvements to pension plans in this country in order to assist in alleviating unemployment among those over 40 years of age.

As in the past, this House has shown its concern over the question of human rights. The Ontario Anti-Discrimination Commission Act has been amended and the Commission's name has been altered to the Ontario Human Rights Commission, which is in line with the positive approach to human rights that encompasses all of the people of Ontario. You have also restated and clarified the functions of the Commission. The application of The Fair Accommodation Practices Act has been extended to provide for the prohibition of discrimination in apartment houses that contain more than six self-contained dwelling units.

To ensure that the local authorities have the financial resources necessary to make their contribution to the Province's program for industrial expansion and social advancement, the Honourable Members have approved a substantial increase in the aid which the Province will make available to our municipalities. In 1961-62, the level of assistance will be increased by \$55 million, raising the total aid for the fiscal year to the unprecedented sum of almost \$400 million. Included in this substantial increase in municipal aid will be nearly \$7 million for the reduction of home and farm ratepayers taxation and the unconditional grants in respect of hospital treatment of indigent persons which have been extended to cover the year 1961.

Through the amendments which have been made to other legislation affecting the municipalities, in particular The Municipal Act, The Assessment Act, The Planning Act and The Municipality of Metropolitan Toronto Act, you have clarified and made improvements to the operations of our local authorities. For example, legislation has been passed requiring that the meetings of municipal councils and local boards shall be open. Amendments have been passed providing for the disclosure by a member of a council or of a local board of any pecuniary interest in any matter coming before the council or local board and prohibiting the member from taking part in the consideration, discussion or voting on such matter.

In the field of agriculture, steps are being taken to provide for improved marketing of the farm products of this Province, both at home and abroad, with particular attention being paid to the United Kingdom markets. An amendment to The Milk Industry Act was approved to permit the creation of a marketing plan for milk for use in combinations of products.

As regards energy resources, you have passed amendments to The Energy Act and The Ontario Energy Board Act. By making extensive revisions to The Highway Traffic Act, you have contributed greatly to safe travel on our highways. The responsibilities of the Ontario Water Resources Commission have been clarified and extended and it has been empowered to regulate the use of ground and other natural water supplies.

The Honourable Members have facilitated the administration of justice in this Province by amending The County Judges Act, The Juvenile and Family Courts Act, The Judicature Act, The Magistrates Act, The Evidence Act and The Police Act. By making extensive revisions to The Coroners Act, you have clarified and made more flexible the duties and responsibilities of coroners. You have protected the rights of individuals by passing a new Bailiffs Act. In addition, a large number of legal Acts dealing with estates, mortgages, debts, credit unions, corporations and the like have been amended.

The Lord's Day (Ontario) Act has been revised so that Sunday motion pictures, theatrical performances, lectures and concerts become a matter subject to municipal option as in the case of public games and sports.

In all, the members of this Legislature have considered more than 160 public and private Bills, related to the work of almost every Department of the Government and dealing with countless different aspects of the affairs of the people of Ontario.

In the work of the various Select Committees of the House, you have carried on valuable investigations in many fields. The Select Committee on the cost of drugs in health institutions financially aided by the Province has submitted an interim report, as has the Committee dealing with the expropriation of land by public authorities. The Committee on motor vehicle insurance and compensation to the victims of motor vehicle accidents has presented a review of its findings to date. The Committee examining crop insurance is continuing its work. The Committee studying the rules and procedures of the House has reported and improvements have already been instituted as a result of its investigations. The Committee on the executive and administrative problems in all divisions of the public service of Ontario has reported and has been reappointed. You have also appointed a new Select Committee to inquire into and review The Municipal Act and related Acts and regulations for the purposes of modernization, consolidation and simplification, and making any such recommendations as may be necessary for their improvement.

In the next few months, your Government will be very busy carrying on discussions with both the Federal and other provincial governments. At the Inter-Provincial Conference in Charlottetown in August, matters of mutual concern to all the provinces will be dealt with in an atmosphere of co-operation and amity. Among other subjects, your Government will be bringing forward the question of portable pensions in order that inter-provincial co-operation may be obtained in formulating legislation in this field.

Further discussions will be held with the Federal Government on Federal-Provincial arrangements. My Government holds steadfastly to the view that the Province are entitled by the Constitution, by logic and by economics to half the major direct fields of taxation. The arrangements that have been discussed, though an improvement, have not obviated the necessity of the Province finding additional revenue if it is to play its full part in maintaining a strong and progressive economy. Accordingly, the Members were asked to approve a Budget which provided for a new source of revenue while combining the advantages of sound financial practices with wise use of the Province's credit. The Budget will give a strong lead to the expansion and development of our Province.

To take advantage of the Federal Government's proposals, legislation has been acted to provide an Ontario income tax, to be collected by the Federal authorities. This enactment will not involve any additional tax burden to the residents of Ontario. The House has also passed minor amendments to the Succession Duty and Corporation Income Tax Acts to provide for uniform Provincial and Federal legislation. Your Government is working out arrangements with the Federal Government to avoid duplication and overlapping in the logging tax field.

Appreciation is expressed to the Members of the House as well as to the civil servants for their diligent and conscientious work. We have been deeply saddened, however, by the death during the Session of two highly respected Members of the House—Dr. W. J. Dunlop and Mr. W. H. Collings.

Through amendments to The Public Service Superannuation Act, payments have been increased to a number of retired civil servants who were receiving small pensions. The Teachers' Superannuation Act and the sections dealing with pensions in The Ontario Water Resources Commission Act have also been amended. Special supplementary appropriations of \$1 million were paid into the Public Service Superannuation Fund and The Teachers' Superannuation Fund.

Through the program you have approved this Session, you have done a great deal to stimulate the economy of Ontario and promote high levels of employment and income. Several lead economic indicators point to a pickup in business activities in Canada and the United States during 1961. My Government has indicated, and its determination has been reinforced by the resolution of this House, that it will do everything within its powers to stimulate both short and long term expansion of production and employment. It is a source of gratification that the Honourable Members, through their approval of these policies, have demonstrated overwhelmingly their confidence in the imagination and vigour of the efforts being focused upon these objectives. The problems confronting us today are America-wide in their incidence and are much more acute in other parts of this continent than in Ontario. It is recognized, however, that this is no time for complacency. It is a time for confident action on all fronts. Within its powers so to do, the Government has pledged that it will devote its full energies and resources to the acceleration of the Province's rate of growth.

May Divine Providence guide you and bless you.

The Provincial Secretary then said:—

INTERPRETATION

1.—(1) In these regulations,

(a) "commercial assessment" means,

(i) the assessment of real property that is used as the basis for computing business assessment including the assessment for real property that is rented and occupied or used by the Crown in right of Canada or any province or any board, commission, corporation or other agency thereof, or by any municipal corporation or local board thereof, and

(ii) business assessment, and

(b) "residential and farm assessment" means the assessment for real property except the assessment for real property mentioned in sub-clauses i and iii of clause a, according to the last revised assessment roll;

(c) "school tax assistance grant" means the residential and farm school tax assistance grant under *The Residential and Farm School Tax Assistance Grants Act, 1960-61*.

(2) Section 1 of *The Schools Administration Act* applies to these regulations.

DATA FURNISHED BY THE MUNICIPALITY

2.—(1) The clerk of a municipality shall in each year furnish to each board having jurisdiction in the municipality, or any part thereof, information respecting the total of the commercial assessments, the total of the residential and farm assessments on which rates for the support of the board will be levied in that year and the amount due and payable in the current year for debt charges on debentures issued by the municipality in respect of the board.

(2) Where a county has issued debentures for the purposes of a board, the clerk of the county shall in each year furnish information to the board respecting the amount due and payable in the current year for debt charges on such debentures.

ESTIMATES FOR BASIS OF RATES

3.—(1) For the purposes of determining the rates, every board in preparing its estimates shall include the amount of debt charges due in the current year in respect of the board but shall not include the amount estimated to be derived in the current year from the school tax assistance grant.

(2) Every board that is supported by assessment in two or more municipalities or in one or more municipalities and territory without municipal organization, shall apportion its estimates as determined under subsection 1 in accordance with the provisions of the Act under which the board operates.

APPORTIONING THE SCHOOL TAX ASSISTANCE GRANT

4.—(1) Where a board is supported by assessment in two or more municipalities or in one or more municipalities and territory without municipal organization, it shall apportion its estimated school tax assistance grant among the municipalities or parts thereof or territory without municipal organization in the same proportion as the residential and farm assessment on which taxes are levied for the board in the current year in each municipality or part thereof or territory without municipal organization, multiplied by the provincial equalizing factor applicable in each municipality or territory, bears to the total of such assessments so equalized.

(2) The provincial equalizing factors shall be those adopted from time to time by the Minister of Education for general legislative grant purposes for the current year.

ADJUSTMENT OF ESTIMATED GRANT

5. The estimated school tax assistance grant for any year after the year 1961 shall be increased or decreased, as the case may be, by the difference in the amount estimated and the amount actually received in the preceding year.

SUBMISSION OF ESTIMATES OF BOARD TO COUNCIL

6.—(1) Every public and secondary school board shall submit to the municipal council, on or before the 1st day of March in each year,

- (a) a copy of its estimates as determined in section 3; and
- (b) the amount estimated to be derived in the current year from the school tax assistance grant, as increased or decreased under section 5, that is to be credited to the residential and farm assessment assessed for the support of the board in the municipality.

(2) Where the board is supported by assessment in two or more municipalities or in one or more municipalities and territory without municipal organization, it shall indicate to each municipal council concerned the amount of the estimates and the amount of the school tax assistance grant that is to apply to the municipality.

DETERMINATION OF RATES

7.—(1) Rates to be levied for each school board in each municipality and territory without municipal organization shall be determined in the following manner:

1. A rate shall be determined which, if applied to the total of the commercial assessment and residential and farm assessment would raise in the municipality or territory without municipal organization the amount estimated in section 3.
2. The difference in the rate to be levied on commercial assessment and on residential and farm assessment for the board in a municipality or territory without municipal organization shall be determined by multiplying the share of the school tax assistance grant for

the board applicable to the municipality by 1,000 and dividing by the amount of residential and farm assessment assessed for the support of the board in the municipality or territory without municipal organization.

3. The rate to be levied on the commercial assessment shall be the rate determined under paragraph 1.
4. The rate to be levied on the residential and farm assessment shall be the rate determined under paragraph 1 less the differential determined under paragraph 2.

(2) Except in the case of public and secondary school boards that have jurisdiction only in territory without municipal organization, secondary school boards in the part of the secondary school districts in territory without municipal organization and separate school boards, the rates shall be determined by the council of each municipality for each board that has jurisdiction in the municipality.

WITHHOLDING OF DEBENTURE LEVY

8.—(1) The council of each municipality shall withhold from the amount levied and collected for a board sufficient funds to meet the annual debt charges payable in the current year by the municipality in respect of debentures issued for the purposes of the board.

(2) Where the debt charges payable by a municipality on behalf of a board are more than the amount levied by the municipality for the cost of operation of the board, the board shall make a payment equal to the deficiency to the municipality on or before the date or dates on which the debt charges are payable.

ASSESSMENT ROLL

9. The assessor of each municipality, in addition to the particulars required under subsection 2 of section 20 of *The Assessment Act*, shall set down in separate columns the following particulars:

4. The residential and farm assessment for separate school purposes.
5. Where two or more high school districts, or parts thereof, are situated in the municipality, the high school districts and the commercial assessment and residential and farm assessment in each high school district.

LEVYING OF SCHOOL RATES

10. The council of every local municipality in each year shall levy on the whole of the assessment for real property and business assessment for public, separate and secondary school purposes, as the case may be, according to the last revised assessment roll, the rates determined for each public, separate and secondary school board having jurisdiction in the municipality, or a part thereof.

APPORTIONMENT OF LIABILITY OF
MUNICIPALITIES FOR SCHOOL SUPPORT

11. The school tax assistance grant shall not be taken into account in apportioning the cost of operation of any board among municipalities or parts thereof or territory without municipal organization.

EFFECTIVE DATE

12. These regulations shall be deemed to have come into force on the 1st day of January, 1961.

APPLICATION

13. Notwithstanding these regulations, where the amount of commercial assessment and the amount of residential and farm assessment assessed for the support of a board in a municipality has not been determined for the purpose of levying school rates by a municipality or school board, the municipality or school board may, in the year 1961, continue to prepare its estimates and strike and levy school rates in accordance with the appropriate Acts as if these regulations were not in force.
